Customer Satisfaction

For anyone in the automotive industry

No matter your role, Autodock adapts to your needs.

Fleet Managers

Manage all company vehicles, documents, and drivers from a single dashboard.

Users

View assigned vehicles, service appointments, and related documents in real time.

Transport Companies

Keep large fleets organized with automatic expiration alerts and detailed reports.

Auto Services

Coordinate service appointments and track maintenance history for every vehicle.

Why choose Autodock?

Everything you need for a well-organized fleet

Real-Time Dashboard

Live statistics on fleet status, active alerts, and vehicle issues, all at a glance.

Document Alerts

Automatic notifications for expiring insurance, technical inspections, and road tolls, well in advance.

Integrated Service Calendar

Schedule and track maintenance visits directly within the platform, complete with automatic reminders.

Driver Management

Assign drivers to vehicles and easily track who is using each car in the fleet.

Centralized Documents

All insurance policies, tolls, and technical documents securely stored and accessible in one place.

Available Anytime, Anywhere

Access the platform from any device, whenever you need it, with no extra installation required.
